Profile

I am a Software Engineer with robust problem-solving skills and proven experience in creating and designing software. I'm very disciplined, diligent, a quick learner, friendly, and a team player.

Education

Bsc In Software Engineering

Addis Ababa University

3.78 GPA

07/2022

Addis Ababa,
Ethiopia

Professional Experience

Nigus Sport Betting

Software Developer

I worked at Nigus Sport Betting as a front-end web developer. I was responsible for:-

- Designing user interfaces.
- Integrating the user interfaces with the backend.
- Validating user's input.

Technology Stack Used: TypeScript, React.js, Next.js, Redux, Git/GitHub

07/2022 - 10/2022

Addis Ababa,
Ethiopia

Yazmi Technology Consultancy P.L.C

Software Engineering Intern

This is my first experience with real-world projects. I was able to cope with a fast-paced environment and the new technology stack I was exposed to.

I was responsible for:-

- Designing and implementing REST API's endpoint.
- Manual testing of the endpoints I design using Postman.
- Successfully debugged errors when encountered.

Technology Stack Used: JavaScript, React.js, Node.js, MongoDB, Git/GitHub

06/2021 - 09/2021

Addis Ababa,
Ethiopia

Projects

Dereja Clone

A clone of dereja.com website.

Technology stack Used: React, Tailwindcss, RTK

Links To Project

- GitHub Link 
- Live Server 

02/2023 - present

Corporate Ethiopia

A job listing web application built with Django. Admin can manage companies and jobs and users can search, filter and view jobs.

Technology Stack User: Django

Everything Addis

01/2023 - 01/2023

An e-commerce web application with features:-

- Managing categories and products
- Accepting and processing orders
- Analytics dashboard for the admin
- Carts, checkout, and order status checking
- Integration with email and telegram channel

Technology Stack Used: React, RTK, Nest.js, Prisma, RabbitMQ, Postgres, TypeScript, TailwindCss

Online Tracking and Scheduling for City Bus

An online bus scheduling system that allows a bus provider company to generate schedules from previous data and allows commuters to track and search buses in real-time.

Technology Stack Used: Flutter, React.js, Node.js, OSRM, OpenStreetMap, Socket.io, Cypress, Jest

Cinema Addis

A movie scheduling and cinema seat booking app with features :

- Movie schedule preparation.
- Create cinema halls and design their layout.
- Generate QR code readable entrance tickets.

Technology Stack Used: React, Flutter, Node/ Express, MongoDB.

Skills

Programming Languages (Typescript, JavaScript, Dart Java, Python)

Back-end Frameworks (Node.js, Nest.js, Express.js, SpringBoot)

Front-end Frameworks (Flutter, React.js, Next.js)

Database (MySQL, Postgress, MongoDB)

CSS Frameworks (Tailwind, Material-UI, Bootstrap)

Testing (Cypress, Jest)

Awards

Honor Recognition (Very Great Distinction)

Addis Ababa Institute of Technology

Certificate of Recognition of Volunteer Participation

Addis Ababa Institute of Technology

Languages

- English
- Amharic

Interests

- Table Tennis
- Gardening
- Music
- Business

Organizations

Addis Ababa Institute of Technology

Volunteer Software Developer

I volunteered alongside fellow lecturers and built a KPI system for the institute.

05/2021 - 10/2021

Addis Ababa,
Ethiopia
