PROFILE

Proficient software engineer with expertise in planning, designing, and building innovative software solutions. Skilled in analyzing complex problems from multiple angles and selecting the optimal solution. Extensive knowledge of programming languages, frameworks, databases, and design patterns. Proven track record of success both academically and professionally, with hands-on experience in delivering high-quality projects. Adept at collaborating with teams and managing cross-functional projects. Committed to continuous learning and staying updated with the latest technologies.

PROFESSIONAL EXPERIENCE

Senior Full Stack Software Developer, Tiltek Technology PLC

2023-03 – present

- Led the development of a video sharing and streaming platform, overseeing the entire project lifecycle from requirements gathering to development and testing as the lead project manager.
- Carried out the backend development of SMS, OBD, and IVR services that have been trusted by numerous organizations in Ethiopia, including the Red Cross Ethiopia, Ethiopian Health Insurance Agency, Geneva Global Ethiopia, Adika, Angla Business PLC, Arada FM 95.1, McCarty and Valdez Traders, Care Ethiopia, Hale and Ruiz Traders, and many others
- Directed the development of a B2B wholesale eCommerce platform, integrating advanced IVR systems and promotional blast features to streamline and enhance the traditional exchange of goods, carefully monitoring and assigning tasks to junior developers.
- Built an interactive IVR designer user interface that resulted in minimizing the time it used to consume for creating the call flow manually.

Part-Time Instructor, Addis Ababa Institute of Technology

2022-11 – 2023-03

Addis Ababa,
Ethiopia

- Delivered Distributed System Programming course.
- Preparing course materials for students.
- Preparing slides, hand out notes and references for students.
- Breaking down complex subject into palatable pieces.
- Demonstrating the subject material with the latest industry technology.
- Taking continuous assessments and assigning course projects.

Software Developer, Nigus Sport Betting

- Designed visually appealing and user-friendly interfaces.
- Implemented robust client-side input validation to enhance data integrity and security.
- Collaborated with teams to deliver high-quality software products in a fast-paced environment.
- Demonstrated problem-solving skills by identifying and resolving errors encountered during development.
- Utilized Git/GitHub for version control, enabling efficient collaboration and code management.

2022-07 – 2022-10

Addis Ababa,
Ethiopia**Software Engineering Intern, Yazmi Technology Consultancy P.L.C**

- Helped in development of an E-Learning platform that runs over a satellite network to help rich students in remote area where internet access is limited.
- Conducted comprehensive various testing to ensure reliability and adherence to requirements.
- Demonstrated strong problem-solving skills by identifying and debugging errors encountered during the development process.
- Leveraged modern web development technologies to build reusable and interactive user interfaces for web applications.

2021-06 – 2021-09
